CANCELLATION OF MINERAL MATERIAL PERMIT ML 48357-MP; FUND:MH

Mineral Materials Permit ML 48357-MP was approved October 13, 1999, for a one year term ending October 31, 2000, as to the following described trust lands.

ML 48357-MP

Jeffrey L. Sagers

2016 S. Montana Ave.
Provo, UT 84606

T13N, R16W, SLB&M

Sec. 22: SW4

Sec. 27: NE4NW4

Box Elder County

200.00 acres

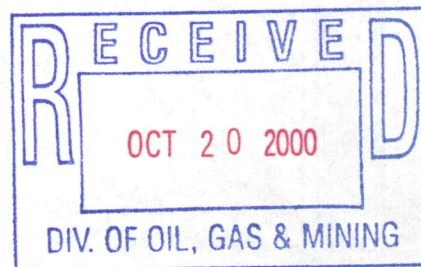

The applicant originally represented to the agency that he would mine quartzite aggregate from the permit lands. During the course of the year, however, the Permittee mined flagstone rather than aggregate. The mining of flagstone by the Permittee is of concern because such material has a higher value than aggregate.

Paragraph 5 of the terms and conditions of ML 48357-MP provides that the Trust Lands Administration may terminate the contract for any reason, whatsoever, after giving the Permittee 30 days notice by registered mail. Accordingly, on August 4, 2000, the Trust Lands Administration notified Jeffrey L. Sagers, Permittee, by registered mail, that ML 48357-MP would be terminated in thirty days.

On September 4, 2000, Mr. Sagers met with Tom Faddies, Dawn Soper and John Blake of the Trust Lands Administration to discuss the matter. It was decided that ML 48357-MP should be terminated pursuant to the August 4, 2000, notification. It was also decided that following the resolution of outstanding royalty issues, the Trust Lands Administration will consider issuance of a new permit to Mr. Sagers providing for the removal of both flagstone and aggregate.

Mr. Blake recommends that the Director approve the cancellation of ML 48357-MP, pursuant to Paragraph 5 of the permit.

(A new mineral materials permit for quartzite and building stone in the lands may be recommended for approval in the near future.)
